

knowledge and understanding of the subject studied.

Research capacity means the quality and depth of an institution's research infrastructure as evidenced by its: faculty expertise in the natural or social sciences, scientific and technical resources, research environment, library resources, and organizational structures and reward systems for attracting and retaining first-rate research faculty or students at the graduate and post-doctorate levels.

Research project grant means a grant in support of a project that addresses one or more of the targeted need areas or specific subject matter/emphasis areas identified in the annual program announcement related to strengthening research programs including, but not limited to, such initiatives as: Studies and experimentation in food and agricultural sciences, centralized research support systems, technology delivery systems, and other creative projects designed to provide needed enhancement of the Nation's food and agricultural research system.

Secretary means the Secretary of Agriculture and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Marianas, the Virgin Islands of the United States, and the District of Columbia.

Teaching means formal classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and matters related thereto (such as faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methodologies) conducted by colleges and universities offering baccalaureate or higher degrees.

Teaching capacity means the quality and depth of an institution's academic programs infrastructure as evidenced by its: Curriculum, teaching faculty, instructional delivery systems, student experiential learning opportunities, scientific instrumentation for teaching, library resources, academic stand-

ing and racial, ethnic, or gender diversity of its faculty and student body as well as faculty and student recruitment and retention programs provided by a college or university in order to achieve maximum results in the development of scientific and professional expertise for the Nation's food and agricultural system.

Teaching project grant means a grant in support of a project that addresses one or more of the targeted need areas or specific subject matter/emphasis areas identified in the annual program announcement related to strengthening teaching programs including, but not limited to, such initiatives as: Curricula design and materials development, faculty preparation and enhancement for teaching, instruction delivery systems, scientific instrumentation for teaching, student experiential learning, and student recruitment and retention.

Third party in-kind contributions means non-cash contributions of property or services provided by non-Federal third parties, including real property, equipment, supplies and other expendable property, directly benefiting and specifically identifiable to a funded project or program.

USDA agency cooperator means any agency or office of the Department which has reviewed and endorsed an applicant's request for support, and indicates a willingness to make available non-monetary resources or technical assistance throughout the life of a project to ensure the accomplishment of the objectives of a grant awarded under this program.

§3406.3 Institutional eligibility.

Proposals may be submitted by any of the 16 historically black 1890 land-grant institutions and Tuskegee University. The 1890 land-grant institutions are: Alabama A&M University; University of Arkansas—Pine Bluff; Delaware State University; Florida A&M University; Fort Valley State College; Kentucky State University; Southern University and A&M College; University of Maryland—Eastern Shore; Alcorn State University; Lincoln University; North Carolina A&T State University; Langston University;

South Carolina State University; Tennessee State University; Prairie View A&M University; and Virginia State University. An institution eligible to receive an award under this program includes a research foundation maintained by an 1890 land-grant institution or Tuskegee University.

Subpart B—Program Description

§ 3406.4 Purpose of the program.

(a) The Department of Agriculture and the Nation depend upon sound programs in the food and agricultural sciences at the Nation's colleges and universities to produce well trained professionals for careers in the food and agricultural sciences. The capacity of institutions to offer suitable programs in the food and agricultural sciences to meet the Nation's need for a well trained work force in the food and agricultural sciences is a proper concern for the Department.

(b) Historically, the Department has had a close relationship with the 1890 colleges and universities, including Tuskegee University. Through its role as administrator of the Second Morrill Act, the Department has borne the responsibility for helping these institutions develop to their fullest potential in order to meet the needs of students and the needs of the Nation.

(c) The institutional capacity building grants program is intended to stimulate development of quality education and research programs at these institutions in order that they may better assist the Department, on behalf of the Nation, in its mission of providing a professional work force in the food and agricultural sciences.

(d) This program is designed specifically to build the institutional teaching and research capacities of the 1890 land-grant institutions through cooperative programs with Federal and non-Federal entities. The program is competitive among the 1890 Institutions and encourages matching funds on the part of the States, private organizations, and other non-Federal entities to encourage expanded linkages with 1890 Institutions as performers of research and education, and as developers of scientific and professional talent for the United States food and agricultural

system. In addition, through this program, CSREES will strive to increase the overall pool of qualified job applicants from underrepresented groups in order to make significant progress toward achieving the objectives of work force diversity within the Federal Government, particularly the U.S. Department of Agriculture.

§ 3406.5 Matching support.

The Department strongly encourages and may require non-Federal matching support for this program. In the annual program solicitation, CSREES will announce any incentives that may be offered to applicants for committing their own institutional resources or securing third party contributions in support of capacity building projects. CSREES may also announce any required fixed dollar amount or percentage of institutional cost sharing, if applicable.

§ 3406.6 USDA agency cooperator requirement.

(a) Each application must provide documentation that at least one USDA agency or office has agreed to cooperate with the applicant institution on the proposed project. The documentation should describe the expected benefits of the partnership venture for the USDA agency and for the 1890 Institution, and describe the partnership effort between USDA and the 1890 Institution in regard to the proposed project. Such USDA agency cooperation may include, but is not limited to, assisting the applicant institution with proposal development, identifying possible sources of matching funds, securing resources, implementing funded projects, providing technical assistance and expertise throughout the life of the project, participating in project evaluation, and disseminating project results.

(b) The designated CSREES agency contact can provide suggestions to institutions seeking to secure a USDA agency cooperator on a particular proposal.

(c) USDA 1890 Liaison Officers, and other USDA employees serving on the campuses of the 1890 colleges and universities, may assist with proposal development and project execution to
